## **Frustrated By A Man Who Just Won't Commit?**

**Here are the seven secret steps to get him to commit to you!**

If you're with a man who keeps putting off commitment, and you feel stuck and frustrated with a status quo that feels like it will never change, this may be the most important message you will ever read:

Here's why: my name is John Alanis, and for the past 8 years I have shown men how to attract the women they really want. During that time I have gotten to know and understand how men really think about women, and I'm going to tell you a huge secret that may just be the key to finally getting your man to commit.

What men really want deep down is a committed relationship with that one special woman, with a few fun adventures along the way. But if that's so, why won't he commit to you?

The answer is simple: his brain hasn't yet gone through the simple, 7 step process that gets darn near any man not only to commit to you, but think it's 100% his idea. In fact, he'll actually be worried you may turn him down when he asks.

At the request of the women who follow my business closely, I've finally decided to sit down and "tell all" about the male mind when it comes to commitment, and how you too can put the simple 7 step process to work to get the man you really want to commit to you.

This is not tricks, pressure, or manipulation, rather it is the way men WANT women to get them to commit, and when he finally asks you, you'll see the joy and desire in his eyes.

**Here's what is revealed in this new, step by step book to getting the man you really want to commit to you over and over:**

- The strange reason why he won't commit to you right now, even though he really wants to
- How to get him to desire you over every other woman each and every day, thinking about you even when you're away
- How to subtly activate his mind so he comes to the natural conclusion that he wants to commit to you and, in fact, is afraid of losing you
- How to avoid the 8 commitment killing mistakes that subconsciously drive men away- if he's not committing, it's probably because you're make one (or more) of these mistakes...sometimes the mere act of ending those mistakes compels him to suddenly commit

...and much, much more. No matter how frustrated you are right now, when you put this simple, 7 step

process to work, you too may just get the man you really want to commit to you in days, not weeks or months. Also, you get access to the bonus audio, "Understanding Men: How They REALLY Think About Dating, Women and Relationships" an interview between me and a female reporter where she cleverly compels me to reveal everything I know about the male mind (even the things I shouldn't reveal).

**Consider this:** you can settle for the status quo, and wake up every day wondering if today is the day the non-committal man in your life will finally commit, only to be disappointed yet again, or you can put the simple 7 step process to work to get him to commit to you and think it's his idea. Just imagine how happy you'll be and he'll be when he finally hears your YES. **End your frustration, and click the orange buy button right now to claim your copy of this book, and you too can finally be the happy couple everyone else is secretly jealous of.**
